DETAILED ACTION

Claims 1-4, 7-17, 19-22, 24-27, 29-40, 42-46 are pending. The Amendment filed 9/10/02, cancelled claims 47-49 and amended claim 1, 11-13, 22, 30, 36-38, and 44-46.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4, 7-17, 19-22, 24-27, 29, 44-46, drawn to a cosmetic paper product, classified in class 424, subclass 401.
- II. Claims 30-40, 42-43, drawn to a method of making a paper towel, classified in class 493, subclass 328.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the method can be used to make other products such as paper bags, writing paper, and other paper products.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Jason Johnston on 10/29/02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1617

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
